Hotel June

Los Angeles

Debuting last year, Hotel June is the more laidback spinoff of Proper Hotels. This approachable lifestyle brand embodies the spirit of California and a summer sensibility year-round, which is reflected in **Studio Collective's** eclectic interiors. Housed in a midcentury building designed by the renowned Welton Becket (the project is also graced with custom wallpapers from his granddaughter, Alexandra), Hotel June's lobby invites visitors into a colorful, tactile world of full-height white oak shutters, terrazzo tiles in tones of warm sand and dark lava, and metalwork powdercoated a glossy emerald green. Behind the front desk, a handpainted mural blending organic shapes and bold hues by artist Alex Proba envelops the adjacent wall. The 250 guestrooms are just as vibrant, filled with custom furniture, including daybeds swathed in coastal blue upholstery and speckled terrazzo tables.

Architecture Firm **Kollin Altomare Architects**, Long Beach, California Interior Design Firm **Studio Collective**, Venice, California Owner **The KOR Group** Operator **Proper Hospitality** Purchasing Firms **Canoe Hospitality** (guestrooms and corridors) and the **Ness Group** (public spaces, lobby restaurants, and pool area)
