A look at the Monet Restaurant at The Park Club California

MEMBERS ONLY *BY ALLISON MITCHELL* Costa Mesa's former Center Club has found new life as The Park Club California (parkclubca.com), an exclusive members-only venue from BNG Hospitality (bnghospitality.com) that brings socializing and networking together under one roof. Los Angeles-based design agency [Studio Collective](http://studio-collective.com) (studio-collective.com) was tapped to give The Park Club its good looks, drawing inspiration from the locale's surrounding art institutions. Rotating art exhibits will celebrate SoCal creatives, while the club's signature Monet Restaurant pays homage to the namesake Impressionist artist. Diners can expect cuisine that takes cues from California's coastline by executive chef Daniel Hohng and live entertainment. The spirits-filled Palm Bar and six accompanying meeting spaces will round out the venue, offering a robust social calendar of food and wine tastings, art receptions, supper club concerts, pre- and post-theater gatherings and much more. Your membership awaits!
