BNG Hospitality recently opened **The Park Club** on the garden level of Center Tower in Costa Mesa, directly adjacent to Segerstrom Center for the Arts, South Coast Repertory, Orange County Museum of Art and South Coast Plaza. The Club provides a members-only experience and an exclusive social environment for professionals and creatives alike. Designed by Venice-based boutique design agency **Studio Collective**, The Park Club features contemporary architectural elements complemented by warm custom furnishings to create an ambiance that is inviting, intimate and visually layered. The Park Club offers eight unique spaces that are available exclusively to members for personal and professional gatherings, from intimate meetings to large-scale groups and special events. The club offers breakfast, lunch and dinner service daily and hosts a calendar of member programs like concerts, art openings, culinary tastings, wine dinners and seasonal gatherings. "We wanted The Park Club's design to embody the vibrancy of the local art scene and were inspired by its neighboring creative institutions, including the recently opened Orange County Museum of Art," says **Studio Collective** partner Adam Goldstein. parkclubca.com

The Elwood Club is a members club in Newport Beach created by Pendry Hotels & Resorts offering private, members-only spaces and services and access to services and amenities at Pendry Newport Beach, including the resort's swimming pool and sun deck, Spa Pendry, fitness center and Pinwheel Kids Club. Located in Fashion Island, The Elwood Club boasts a private restaurant and bar with garden terrace, a glamorous cabaret and bar, a pub with a golf simulator, screening room and boardroom. "We created The Elwood Club to further connect with and enhance the lives of our best guests, the locals who give life and energy to our Pendry hotels," says Michael Fuerstman, co-founder of Pendry Hotels & Resorts. "We want to build a membership and a lifestyle beyond what's possible at a standard private club, to imagine a world of hospitality and cherished spaces to entertain, unwind and connect from day to evening in a way that is deeper and more personal. While The Elwood Club will feature high-design spaces and exciting and innovative programming, we are most excited about building community, connecting people and adding value to our members' lives." elwoodclub.com
